

METRO BIKE RACKS

Easy to use and your
bike travels free

More Information

Bike racks are fitted to buses in Christchurch to improve the city's public transport system and offer greater choice for cyclists and bus users.

The racks are designed to carry two bikes at a time with wheels larger than 16" diameter.

There is no additional fare charge for bikes and while on the rack your bike is insured for a maximum of \$1500.

If you experience any problems when using the bike racks please inform the driver immediately, otherwise call Metroinfo on 366 8855 or email metroinfo@ecan.govt.nz

How to use a Metro Bike Rack

Please remember loading and unloading your bike is up to you. Always load or unload your bike from the front of the bike rack.

Loading your bike

Remove any loose items from bike that could fall off while bus is moving. Let driver know you're going to load your bike.

1. Squeeze bike rack handle up to release. Lower rack.

2. Lift bike onto rack with front wheel facing toward yellow support arm and fit wheels into clearly labelled slots.

3. Raise support arm over front tyre so the hook rests on the top of the front wheel.

Unloading your bike

Let the driver know you will be unloading your bike and exit via front doors.

1. Unhook and lower support arm from front tyre and lift your bike from the rack.

2. If no-one else is using the rack, squeeze handle and fold bike rack back up.

PLEASE NOTE:

Bikes cannot be carried on buses while they travel inside the City Bus Exchange building. This affects route numbers 3, 7 and 35. Cyclists using these routes and travelling to or from the central city must board or disembark one stop before, or after, the City Bus Exchange.
